

**Low-VOC Paint Line**

**Rodda Horizon Interior & Exterior Paints**

[www.rodmapaint.com](http://www.rodmapaint.com) • 800-452-2315

Horizon paints are low-odor coatings that can be applied by brush, roller, or sprayer. The product line includes interior and exterior paints and primers that earn high ratings for hide, leveling, and scrubability.

**What makes it green:**

The entire line is GreenSeal certified for superior performance and Indoor Air Quality. Built in mildew inhibitors assist in preventing mold growth on the cured film.

**What makes it smart:**

Uses the Millennium color system; supplied in all popular sheens.

**Low-VOC, Low Toxicity Sealers**

**AFM Safecoat** • [www.afmsafecoat.com](http://www.afmsafecoat.com) • 800-239-0321

Safecoat's line-up of low- and zero-VOC sealers includes: Penetrating WaterStop, for interior brick, concrete, or wood; MexeSeal, for porous interior tile or masonry; Lock-In Wood Sanding Sealer, for prepping soft woods prior to staining; Safe Seal, for preventing formaldehyde outgassing from processed woods; Hard Seal, for providing mar resistance to both low and high porosity surfaces such as painted or unpainted wood, vinyl, or tile; and Water Seal, which protects porous surfaces from water and grease.

**What makes 'em green:**

Meets LEED IAQ standards; spec'd for Wisconsin's Green Built Home program.

**Bonus points:** No toxic outgassing from cured film. Low odor/low emissions formula is rated safe for chemically sensitive individuals.

**Decorative Paint Line**

**Yolo Colorhouse**

[www.yolocolorhouse.com](http://www.yolocolorhouse.com) • 503.493.8275

This artist-originated company has created a 40-color palette based on colors from nature, and supplied in a flat, egg-shell, and semi-gloss finish. The scrubable, fast drying paints are well-suited for a variety of faux-finishing applications.

**What makes it green:** The product line has been certified safe by GreenSeal, and it's VOC-free. The manufacturers, painters themselves, formulated the product for their own respiratory safety.

**What makes it unique:** The palette is supported to designers with poster sized individual sample sheets, or in a kit with all the colors in letter-size format. The sample cards are coated with the actual paint to guarantee color accuracy.
