

[design matters:]

# ORANGE is the new red.

Who knew red dining rooms were so 2005?

Painters, colorists and designers, *that's* who.

Before you reach for another green to paint your kitchen in or a China-red to oomph up the dining room, consider one of these novel oranges—from tangerine to pumpkin—for a fresh wall color, and pair it with the perfect molding color to complement each shade.
